

Quiz 4

Name: _____

1. (4 points) Create a function *sum_iterable* that takes in a list, tuple, or set and sums all the values in the iterable together.

2. (4 points) Create a function *reverse* that reverses a string. Return the new reversed string.
Hint: reverse("abc") should give you "cba"

3. (2 points) What does a for loop expect? A. boolean B. integer C. iterable D. collection
